STRENGTHS

- **Collaborative Team Player**

Worked and lead a team of 4 for my graduation project and achieved remarkable results, our project took the 1st place in our IT college.
- **Quick Learner**

Rapidly picked up new web development languages and frameworks during my academic course and personal projects.
- **Self Motivation**

I'm driven by self-motivation, and discipline, overcoming challenges to achieve success. With unwavering commitment, I inspire through intrinsic drive.

PROFESSIONAL SUMMARY

Dynamic and motivated Computer Science graduate with a passion for Front-End Development, equipped with a solid foundation in software engineering principles and a keen eye for intuitive user interfaces. Proficient in HTML, CSS, JavaScript, and React.js, with hands-on experience in designing and implementing responsive web applications. Proven ability to collaborate effectively in cross-functional teams to deliver high-quality projects on time and within budget. Strong problem-solving skills and a commitment to continuous learning and professional growth. Seeking opportunities to leverage technical expertise and creativity to drive innovation in Front-End Development.

PROFESSIONAL EXPERIENCE

Freelance Web Designer/Developer

📅 01/2024 - Present

All Projects are available on my Portfolio.

- **React App Development:** Discover my React app portfolio in the link provided, showcasing my front-end development skills. Sleek interfaces, and seamless experiences, explore the essence of innovation.
- **Roofing Website:** Designed and implemented an interactive Roofing website for a friend's business, resulting in increased customer engagement and business growth.
- **Dynamic WordPress Website:** Crafted a dynamic WordPress masterpiece, seamlessly blending design finesse with cutting-edge functionality.
- **Personal Static Portfolio:** Created my personal static portfolio website from scratch, demonstrating creativity and technical proficiency in HTML, and CSS alone, also utilized WooCommerce.
- **Automation Software Development:** Developed multiple automation software for testing web and mobile applications using Python scripts with tools like Selenium.
- **Restaurant Website Design:** Developed a sleek and user-friendly website model for a simulated local restaurant, integrating features like table reservation, and menu customization. This project showcased my ability to create immersive digital experiences tailored to specific business needs, demonstrating how technology can enhance customer engagement and contribute to revenue growth in the restaurant industry.

EDUCATION

Bachelor's in Computer Science

Hashemite University

📅 01/2019 - 01/2024

- **Relevant Coursework:** spearheaded a team of four to develop "I Attend" for my graduation project, a groundbreaking Flutter application utilizing the Dart programming language. "I Attend" solved a huge problem with taking attendance for our doctors and instructors at the university, streamlining processes and enhancing efficiency. Our project was recognized as the top application developed within our IT college.
- **Relevant Coursework:** Completed coursework in data analysis, algorithms, and project management, providing a strong foundation for operational roles.
- **Technical Skills:** Proficient in Excel, with intermediate skills in data analysis tools.
- Experienced with programming languages and software development methodologies.
